

# **Do you wish for an easy to use wire service that lets you keep 100% of your profits AND helps you get a leg up on the competition?**

Having a service that allows people to order flowers and send them to virtually anywhere in the US and Canada is a great idea - for the customer.

Sure, you DO get business from the wire services, but there are always strings attached.

- Middlemen who take a cut of your money
- Middlemen who can take forever to pay
- Monthly wire service fees and charges
- No idea of what kind of exposure you're getting

**"It's the wave of the future. This service provides contacts for florists to work together and keep profits in their own pockets." Alex at Alex's Flowers - Pittsburgh, PA**

Up until now, you've only had 2 options. Either you go it alone and hope for the best, or you pay the price and use someone else's service.

**"The majority of my orders come from the Internet. I enjoy getting the direct business and keeping 100% of the profit." Lori at Chichester's Florist - Macon, GA**

**Imagine what you would do WITHOUT THE MIDDLEMAN and having those extra fees GO STRAIGHT INTO YOUR POCKET.**
